

ABHISHEK SHARMA

Entry-Level Engineer | Python · Data Analytics · Generative AI · Machine Learning · GCP

+91 8052314956 | abhishekpratapsharma81@gmail.com | linkedin.com/in/abhisheksharma-334947349 | github.com/abhisheksharma81 | abhishekwebpro.netlify.app

PROFESSIONAL SUMMARY

Motivated Entry-Level Engineer with verified industry experience at Deloitte and Tata Group, applying Python, data analytics, and Generative AI to solve real-world business problems. Proficient in Python (Pandas, NumPy, Matplotlib/Seaborn), SQL, Scikit-Learn, PyTorch, Prompt Engineering, LLMs, and GCP (Vertex AI, Gemini API) — with hands-on experience building ML models, GenAI-powered pipelines, and data visualisation dashboards. Strong problem-solving, analytical, and communication skills with thorough code documentation practices. Google Cloud & Generative AI Certified | 450+ LeetCode / DSA problems solved | 97%+ model accuracy across deployed projects.

TECHNICAL SKILLS

Languages: Python (NumPy, Pandas, Matplotlib, Seaborn — Advanced), SQL (Advanced), C, C++

Generative AI: LLMs, Prompt Engineering, Gemini API (GCP), Embeddings, Multi-Agent Systems, Retrieval-Augmented Generation (RAG)

ML / Modeling: Scikit-Learn, PyTorch, MLflow, Regression, Classification, Time-Series Analysis, Feature Engineering, NLP

Data Analytics: EDA, Data Cleaning & Validation, Statistical Analysis, A/B Testing, ETL Pipelines, Data Wrangling

Visualization: Power BI, Matplotlib, Seaborn, Dashboard Development, KPI Reporting

Cloud & MLOps: GCP, Vertex AI, Docker, FastAPI, REST APIs, Git/GitHub, MySQL, PostgreSQL, Redis, Jupyter

PROFESSIONAL EXPERIENCE

Generative AI-Powered Data Analytics Intern

Aug 2025 – Oct 2025

Tata Group · India

- Developed Python-based GenAI applications integrating LLMs via Gemini API — engineered ETL data pipelines applying prompt engineering and embeddings, achieving 97.3% data interpretation accuracy and reducing manual effort by 42%.
- Built and evaluated end-to-end supervised ML classification models (regression, classification) on GCP Vertex AI — attained 94.8% accuracy, improving operational decision precision by 28% over baseline rule-based systems.
- Created data visualisations and analytical dashboards communicating insights to cross-functional teams; documented all models, code, and findings clearly — drove 31% operational efficiency improvement.

Data Analytics Intern

Apr 2025 – Jun 2025

Deloitte · India

- Collected, cleaned, and analysed structured business datasets using Python (Pandas, NumPy) and SQL — identified data inconsistencies, performed EDA, and built automated ETL pipelines achieving 99.2% accuracy and 38% faster preprocessing.
- Built interactive Power BI dashboards and Seaborn/Matplotlib visualisations monitoring 15+ KPIs — communicated analytical findings clearly to both technical and non-technical senior stakeholders, increasing report speed by 45%.
- Delivered 6 analytical reports with statistical models and data-driven recommendations, improving cross-team data alignment by 26% and directly informing strategic business decisions.

PROJECTS

Multi-Agent AI System · Python, FastAPI, LLMs, RAG, PostgreSQL, Redis

Dec 2025

- Architected a modular GenAI application using LLMs, prompt engineering, embeddings, and RAG (Qdrant vector DB) for autonomous data retrieval and decision support — 96.5% task completion accuracy, 30% faster than single-agent baseline. Full Git version control, pytest suite, and documentation.

Real-Time Gesture Recognition · Python, OpenCV, Scikit-Learn

Nov 2025

- Built and evaluated an ML classification model achieving 95.7% accuracy at under 30 ms latency — applied feature engineering pipelines, EDA, and statistical analysis to optimise model performance across varied conditions.

HR Analytics Dashboard · Power BI, SQL, PostgreSQL, Python ETL

Jan 2026

- Developed a data analytics dashboard tracking workforce KPIs — cleaned and modelled data with Python ETL (35% efficiency gain), built Power BI visualisations, and documented all analytical methodologies for stakeholder handover.

EDUCATION

B.Tech — CSE (Data Science Specialization) | CGPA: 8.43 / 10.0

Aug 2023 – May 2027 (Expected)

Goel Institute of Technology & Management (GITM), Lucknow, Uttar Pradesh

CERTIFICATIONS & ACHIEVEMENTS

- Google Cloud Platform Certified · Google Cloud Generative AI Certified · Data Analytics Professional Certified
- 450+ LeetCode problems solved (DSA & Algorithms mastery) · National-level AI Hackathon Finalist — GUVI & HCL
- Innovation Ideathon 2026 Lead Organizer — Career Catalyst Program, GITM · Mentored 50+ students in Python, ML & GenAI
